CAREER PROFILE

• General technologist with in-depth knowledge and experience spanning multiple paradigms (Windows/Linux Administration, Development and automation, network/datacenter planning).

• Experienced and familiar with DevOps methodologies and tools.

• A team player, organized, service oriented, with high self-learning capabilities, excellent interpersonal skills, and comprehensive systemic vision.

• Many years of RDBMS experience spanning MySQL/PostgreSQL/MSSQL building multiple products

• Fast learner, career oriented, looking for long-term growth

EXPERIENCES

CTO/Fullstack developer/Sr. System Administrator
Giganet, Israel   2016 - Present

• **Datacenter Administration**– Plan, build and maintain a highly-available, always on environment spanning multiple datacenters serving hundreds of companies

• **Training/Mentoring** - Introducing a training/mentoring program for all interested staff to eliminate dependency on external contractors

• **Fullstack Development** – Built a distributed, full stack (Backend/Frontend/Distributed Agents), VOIP management system serving thousands of customers

• **Operational Monitoring** – Set up and maintain monitoring systems (Prometheus/Telegraf/InfluxDB/Grafana) for internal systems spanning hundreds of VMs

• **CI/CD** - Built and maintained pipelines for multiple in-house products with ArgoCD, github actions and gitlab CI

• **Kubernetes** - Built and maintain Kubernetes clusters hosting internal services and monitoring systems
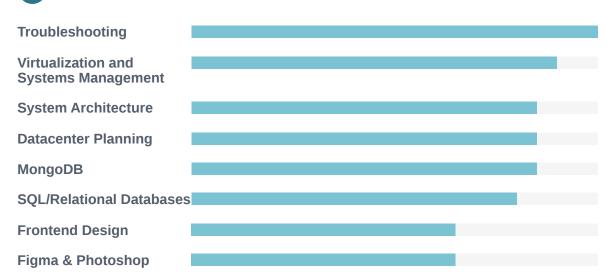

PROJECTS

Some projects I've worked on over the years

cours.es - Dashboard used for serving an android development course - not running anymore

NGNSA - Anticheat/remote memory editor used for a game server I ran

NGNS - An emulated game server for a MMORPG, based on an older open source project, highly customized and improved

SKILLS & PROFICIENCY

- **Troubleshooting**
- **Virtualization and Systems Management**
- **System Architecture**
- **Datacenter Planning**
- **MongoDB**
- **SQL/Relational Databases**
- **Frontend Design**
- **Figma & Photoshop**
